

# THE CLAY CITY TIMES.

\$1.00 a Year in Advance.

We are here to help Clay City, the Surrounding Country and Ourselves.

J. E. Burgher, Publisher.

VOL. XVI.

CLAY CITY, KY., THURSDAY, DECEMBER 7, 1911.

NO. 49

## To Attend Inauguration.

We learn several from Clay City will attend the inauguration of Governor James B. McCreary at the capitol in Frankfort next Tuesday. The editor of the Times would be delighted to be present too, but if we manage to make both ends meet we find it necessary to put in every week day. We think, however, it is better to be too busy than to be too idle and will continue to work a little while longer even if we do miss a few of the good things. In the future we are expecting any way to have the opportunity more frequently of attending the inauguration of Democratic Governors in Kentucky than we have had in the past.

## Sassafras Digging.

Information received from Hancock county announces that a new industry has been found in the pulling up and shipping of sassafras roots to a manufacturing concern in Louisville. It is said that a certain extract or oil is being made of the roots and that the Louisville concern is paying handsomely for them.

Many farmers of the county who have merely existed heretofore by endeavoring to eke out a living by farming, have turned their entire attention to the finding and digging of sassafras roots, claiming that their small farming lands will now make them wealthy.—Warsaw Leader.

## Shot at Jackson.

Jeff Davis, better known as "Yaller Cat" was shot at Jackson Tuesday afternoon by Deputy Town Marshal Green Watkins. Davis was disorderly and when Watkins attempted to arrest him he resisted then Watkins shot him. Davis was hurried on an early morning train to a Lexington hospital but died before he reached Filson in this county.

## A Correction.

In a recent issue of the Times a news item appeared to the effect that had Mr. Garrett have had opposition he would have been defeated. This item was based on statements made by some of our exchanges which we supposed had better access to the figures than we did and supposed it to be true. The official returns show this to be a mistake. O'Rear carried this Railroad district by a majority of 2,345 votes while some of the minor candidates received a much greater majority. Knowing the situation as we do, it is fortunate for the Democratic state ticket that Mr. Garrett did not have opposition since he being so popular with many Democrats it would have been compelled to have detracted from the Democratic vote, and had Mr. Garrett have had opposition it is safe to say he would have led the state ticket in his district by hundreds of votes. The item mentioned did not mean to reflect on our friend Mr. Garrett but appeared merely as a news item based on statements of others whom we thought had taken the pains to count the vote.

## To Regulate Veterinary Practice.

A bill has been drawn up by the Kentucky Veterinary Medical Association and will be introduced at the coming Legislature for enactment into a law. The bill is similar to one introduced at the last session, but has been revised and corrected, not including any faze of the tuberculosis question. It has its purpose, to place the veterinary practice in Kentucky in the hands of competent and educated men, and thereby elevate the profession. It provides among other things for a board of veterinary medical examiners; compels the issuance of practitioners upon examination, together with the registration of these licenses, and provides a penalty by fine or by jail sentence, or both, for violation of the act.

## AGRICULTURAL EXTENSION.

### Short Courses in Agriculture.

On the second day of January, 1912, the College of Agriculture of the State University will begin its farmers' courses or short courses in agriculture. The first week of this time will be designated Farmers' Week. The time will be consumed by the annual conventions of the various live stock breeders' associations, including the dairy and beef cattle, swine, sheep and horse, the annual meeting of the State Horticultural Society and the State Corn Growers' Association. Each of these associations will devote one day to their program, some of the conventions running simultaneously in different rooms.

This week affords the best possible opportunity, not only to hear an interesting and instructive program by practical and professional men of State and nation-wide reputation, but also an opportunity to meet a large majority of the most successful farmers and stockmen of our State. Not only will the farmer find the week spent at the college pleasant and profitable, but also his wife and daughter will find that special arrangements have been made for them in the way of instruction in household economics. Lectures, demonstrations and practical exercises in cooking, sewing, home decoration and other matters pertaining to the home will be treated.

During Farmers' Week the State Corn Show will be held, with a large number of classes for both the adult and boys' departments, and a most attractive premium list is offered. At the same time will be held the State Dairy Show, with exhibits of milk and cream of both certified and market classes, and butter made at the creamery and on the farm, each in its class. A separate premium list will be offered for the various classes, making it well worth while to compete in any of them. The State Horticultural Society is also arranging for an elaborate exhibit. Special folders giving information concerning each of these departments will be mailed to any one on request.

Reduced rates have been secured over all the railroad lines to put it within the means of a larger number to attend.

Immediately following Farmers' Week will come the regular Winter Short Course in Agriculture, intended for the practical farmer who cannot leave his farm to take any of the regular college courses. This course continues until the middle of March, treating practical farm problems and operations in a scientific manner. The time was selected during the winter in order that it might be possible for the farmer to leave his work, which would not be the case if the work were conducted in the summer.

The facilities for teaching are perhaps as good at the Kentucky Agricultural College as at any other place in the country, especially in the case of live stock and dairying. Among the subjects treated will be agronomy,

or general field crops, animal husbandry, diseases of live stock, farm and home sanitation, including dairy bacteriology, farm dairying and dairy management, botany; horticulture in its various phases, economic entomology or the study of injurious and beneficial insects, road construction and maintenance, farm law, weather forecasting and farm accounts.

No pains or money have been spared to make the week pleasant and profitable to the farmer. A special booklet describing the short courses in detail has been printed and will be sent on application. All is absolutely free.

For information address

T. R. Bryant,  
Supt. Extension Division.

## SPOUT SPRING.

Everett Barnett will shortly have a sale and return to Illinois.

James F. Barnett has rented a house from P. D. Todd and moved there Monday.

C. A. Conlee, of Stanton, spent Saturday and Sunday with his sister, Mrs. Shelt McKinney.

Curtis Bowman was below this week marketing some of his celebrated brand of sorghum.

Geo. S. Ware has invoiced his stock of goods here to McKinney & Morrison and they have taken charge. Mr. Ware will move to his farm about the 20th.

Davis & McKinney will soon move their saw mill and grist mill to the old stand at this place where they will be ready to do custom work for the people of the neighborhood.

## Governors' Galore.

One Governor of Kentucky, a Governor-elect and four ex-Governors of this Commonwealth will participate in the inauguration of James B. McCreary, December 12.

The ex-Governors are Simon Bolivar Buckner, Senator W. J. Bradley, J. C. W. Beckham and Mr. McCreary. Of course the Governor who will participate is Governor Willson, and it is probably the only time in the history of any state in the Union when so many ex-Governors took part in the inauguration of a Governor. Former Governors Buckner, Bradley and Beckham will occupy a carriage and be in the inaugural parade with Governor Willson and Governor-elect McCreary.—Kentucky Republican.

Wonder if ex-Governor Taylor will be there?

President Taft's annual message to Congress, which was read in the Senate and House Tuesday, is devoted solely to the trust question. Democratic leaders regard it as an attempt to sidetrack the tariff issue in the 1912 presidential campaign. The Republican leaders say the message is the strongest utterance the President ever made.

Telling the average man to do his Christmas shopping early is like giving him a letter to mail.

## Lands Posted.

All persons are hereby notified that no hunting will be allowed on inclosed lands belonging to the undersigned.

Mrs. Emma Mountz,  
J. E. Burgher.

Additional names added to this list for 25 cents cash.

## New Fall Millinery

Just received from the city which combines the newest styles and lowest prices.

## SHOES AT FIRST COST

\$500 worth of Shoes have been marked down to first cost in order to get room for new goods coming in. In this sale will also be included a lot of

## HATS and CAPS.

Here's your opportunity to save some money. First come, first served.

## SHIMFESSEL'S.

## WALDRON & JOHNSON,

Thursday, - - - Dec. 7, 1911.

**CLUB RATES.**

For the convenience of our subscribers, we have arranged club rates with the following papers at prices below mentioned:

The Times and	
Courier-Journal	\$1.00
Cincinnati Enquirer	1.10
Louisville Herald	90
Home and Farm	75
Island Farmer	1.00
American Farmer	90
Southern Agriculturist	75

How long must the people continue to pay express companies a profit of 40 per cent a year on money that is not invested in the express business, and that exists in blue air only?

This is a question that the people desire answered, and one that they are beginning to become impatient about, judging from the ever-increasing number of communications on this subject that are being received by members of Congress.

Express companies ought to be permitted to make a good liberal rate of interest on money actually invested. The thing that arouses our disgust is that the government permits the express companies to extort a profit of from 25 to 50 per cent on a capitalization that is two-thirds water.

We take pleasure in announcing that any of our readers can secure a pretty vest pocket note book and calendar by sending 4 one-cent stamps to D. Swift & Co., Patent Lawyers, Washington D. C. In addition to the 44 blank pages for memoranda, it contains calendars for 1912 and 1913, the population of the 600 largest cities, 20 in each state, according to the census of 1910, the population and area of each state, the number of electoral votes each presidential candidate received from each state in 1908, the number of Democrats and Republicans elected to Congress by each state in 1908 and 1910, a chapter of useful information, and a chapter of useful law points for every day use. This book would cost 25 cents at a book store.

Congress has resumed business at the old stand, and the battle between it and the President from now on will rage with increased intensity until the sweltering days of next summer. The President as usual is fighting for the trusts and capitalists, and in fact almost everybody who wants to plunder the public as he expects them to "buy" him another term. On the other hand Congress passed several good tariff bills last summer which would have greatly benefited the public. President Taft vetoed those bills as is well known, simply because he thought it was the wrong quarter of the moon or something of that sort.

When that new governor of Kentucky returns to the executive mansion after an absence of thirty-five years he will probably feel somewhat Rip Van Winkle.

When bosses fall out then just men get their dues.

**The Rise of the Silo.**

Kentucky newspapers note the building of a good many silos in different sections of the State, which may be accepted as a favorable indication of agricultural progress. In some parts of the country the silos have to a great extent worked a revolution in farming methods, with consequent profit to the farmer. They are of especial value to the dairyman and stockgrower.

The first silo in the United States is said to have been constructed in Westchester county, New York, in 1875, and the second silo was built at the University of Illinois. The silo is, therefore, a comparatively modern institution in this country, though silos at present must be reckoned by the thousands. It was an outgrowth of the practice, long prevalent in foreign countries, of preserving green forage by gathering it in heaps or in pits and covering it over with earth. There are several types of the structure of varying cost and durability. Just at present the concrete silo is in great favor, though it is of recent origin and, perhaps, has not been so thoroughly tested as to warrant a certificate of superiority.

Silage may be made from several kinds of crops, but corn is the favored product among farmers who have become interested in silage methods. The farmer who has a silo does not plant corn merely for the grain, but in order that he may also preserve the forage. Where the preservation process is successful silage makes an ideal winter feed for stock, cheap and nutritious and with comparatively little waste. The silo is no longer an experiment. It has been tested on thousands of American farms with satisfactory results and the Kentucky farmers who are adopting it should have no cause to regret the innovation. — Courier-Journal.

We have come to the conclusion that about every one you meet could run a fine newspaper. Men will take the liberty to tell you how to run a paper when they would not think of hinting to the merchant how to conduct his store, or tell the preacher what to preach. They pay good money for schools and don't know whether Johnny is learning the rule of three, or how to hold a cigarette gracefully; but when it comes to the newspaper, gee whizz! that's where they all get off.

This is the way a Kansas editor writes up a wedding notice:

"Married, Miss Sylvia Rhode to John Cannahan, last Sunday evening, in the Baptist church. The bride is an ordinary town girl, who doesn't know any more than a rabbit about cooking and never helped her mother more than three days in her life. She is not a beauty by any means and has a gait like a duck. The bridegroom is an up-to-date loafer, has been living off the old folks all his life, and doesn't amount to shucks nohow. They will have a hard life while they live together."

**Good Luck**

you can plainly see—if you only look. People are growing more and more accustomed to coming here for values. They find the figures plain and are anxious for the values offered. If you want to be convinced it is an easy matter. We want to show you, and, showing you, we know your verdict.

Mrs. Williams

**The Rev. Irl R. Hicks 1912 Almanac.**

Before the great drouth of 1901, the Hicks Almanac gave timely warning. For over two years prior to 1911, the Hicks Almanac again sounded a warning of drouth danger. And so for forty years this same friend of all the people has steadfastly refused the offers of speculators and continued to warn the public of the coming dangers of storm and weather. As they should have done, the people have nobly stood by Professor Hicks, their faithful public servant, who has grown old in their service. Send only one dollar to Word and Works Publishing Company, 3401 Franklin Avenue, St. Louis, Missouri, and get his Magazine and Almanac both for one year. The Almanac alone, a fine book of 150 pages, is only 35c by mail. Let every body respond and receive the warnings of our National Seer for the coming year.

**McCall's Magazine and McCall Patterns**

**For Women**

Have More Friends than any other magazine or patterns. McCall's is the reliable Fashion Guide monthly in one million one hundred thousand homes. Besides showing all the latest designs of McCall Patterns, each issue is brimful of sparkling short stories and helpful information for women.

Save Money and Keep in Style by subscribing for McCall's Magazine at once. Costs only 50 cents a year, including any one of the celebrated McCall Patterns free.

McCall Patterns lead all others in style, fit, simplicity, economy and number sold. More dealers sell McCall Patterns than any other two makes combined. None higher than 15 cents. Buy from your dealer, or by mail from

**USE HOPE MILLS FLOUR**

**PRACTICAL EXPERIENCE**

can teach much about bread making, and one of the things it will impress upon the pupil is that good bread can only be made from good flour, and the better the flour the better the bread. For that reason experienced housekeepers prefer the HOPE MILLS FLOUR, not only because it will make bread that tastes good but bread that is really healthful and nutritious.

M'd by J. ANDREW GAIN, Versailles, Ky.

**The Myers Patent Mop Wringer**

This Mop Wringer is the only machine ever invented that will wring and clean a mop thoroughly. It not only takes out the dirt and leaves the mop clean, but it wrings "so dry" that there is hardly any moisture left in the mop. The floor is never left streaky as you are always using a clean mop. The machine is very simple to operate and requires no skill. Anybody can use it, man, woman or child. It is a labor saver, and one person will do the work quicker and better than three with any other device known. The pail sets on the pattern and is not attached to the machine and can be moved at any time. It is always ready for use and there are no parts to get out of order. A trial of our machine will convince you that its work is perfect. We have yet to find a dissatisfied customer.

If your dealer does not handle this Mop Wringer, write direct to us.

**MYERS WRINGER CO., Manuf'rs, Mohawk, N. Y.**

# THE TIMES.

AN ALL HOME-MADE PAPER.

## LOCAL BREVITIES.

THURSDAY, Dec. 7, 1911.

Miss Ada Johnson visited friends in Mt. Sterling Friday.

Eric Kestling, of Bloomington, Kas., is visiting friends in the city.

A. E. Sams, of Winchester, was here a short while yesterday on a business trip.

Ideal winter weather continues with us which is very acceptable at this time.

Dr. Martin reports the birth of a son to Mr. and Mrs. Ed Martin, Thursday, Nov. 30th.

Next year is leap year, bringing about another opportunity to the old maids to win a husband.

Misses Cordelia Daniel and Carrie Belle McPherson, of Winchester, visited Miss Grace Shimmess Sunday.

The revival meeting closed at the Methodist church in this city Sunday night with five additions and the church greatly revived.

Harlan Walters, little son of June Walters, had a leg broken Monday while handling wood. Some of the wood in some manner was thrown on the lad's leg with above results.

With Prof. Atkinson as principal our city schools are getting along fine. Much better than any former terms of recent years. This, however, means no reflection on our teachers.

Prentice O'Rear, son of Judge E. C. O'Rear, who was the Republican candidate for Governor, is an applicant for the place on the Board of Control Charitable Institutions which will be vacant January 1.

Elder J. T. Turpin of the Baptist church will hold a protracted meeting in this city beginning the 11th. The services will be held in the Christian church. Every body is most cordially invited to attend these meetings.

The thirteenth census of the tobacco crop shows that Kentucky led all other States in acreage, value and production of tobacco. The value of Kentucky's crop increased in ten years from \$18,541,982, to \$36,868,753.

Mrs. Sarah Hudson died in the western portion of the county Monday, December 4th, aged sixty-two years of tuberculosis. Burial yesterday at the West Bend grave yard. Her husband preceded her in death just one year ago.

Hunting has cost 100 lives in America this year so far and has brought serious injury to thirty seven, according to records kept by Chicago newspapers. The deaths number the same as last year, but the injured totaled less than half of last year.

**A Terrible Bunder**  
on neglect liver trouble. Never do it. Take Dr. King's New Life Pills on the first sign of constipation, biliousness or inactive bowels and prevent virulent indigestion, jaundice or gall stones. They regulate liver, stomach and bowels and build up your health. Only 25c at all dealers.

It is said a parole is soon to be granted Judge C. E. Boone, now serving a sentence at Frankfort for stealing \$10,000 of the State's money.

An agreed suit will be filed by Insurance Commissioner Bell to examine the records of the Louisville Board of Fire Underwriters.

**Lightning Kills Few.**  
In 1906 lightning killed only 169 people in this whole country. One's chances of death by lightning are less than two in a million. The chance of death from liver, kidney or stomach trouble is vastly greater, but not if Electric Bitters be used, as Robert Madsen, of West Burlington, Ia., proved. Four doctors gave him up after eight months of suffering from virulent liver trouble and yellow jaundice. He was then completely cured by Electric Bitters. They're the best stomach, liver, nerve and kidney remedy and blood purifier on earth. Only 50c at all dealers.

**FOUND**—Small money safe with some change in it. Apply at this office.

The Rev. H. R. Shearer, of Stanton College will preach at the Presbyterian church in this city Sunday morning and evening.

J. E. Townsend, of Vinton, was in the city yesterday marketing some fine apples raised by him in this county. Fruit is always a valuable crop and should be more extensively raised in Powell county than what it is.

**Saved His Wife's Life.**  
"My wife would have been in her grave today," writes O. H. Brown, of Moscadine, Ala., "If it had not been for Dr. King's New Discovery. She was down in bed, not able to get up without help. She had a severe bronchial trouble and a dreadful cough. I got her a bottle of Dr. King's New Discovery and she soon began to mend, and was well in a short time." Reliable for coughs and colds as the most reliable remedy on earth for desperate lung trouble, hemorrhages, croup, asthma, hay fever, croup and whooping cough. 50c, \$1.00. Trial bottle free. Guaranteed by all dealers.

**THE HOOSIER SPECIAL SAVES MILES OF STEPS FOR TIRED FEET**  
J. B. BLACKBURN, STANTON, KY is Agent for Powell County for the above most complete cabinet ever offered the public.  
**Full Stock in Store.**

**Millikan Business School**  
Lexington, Ky.

BOOKKEEPING, SHORTHAND, TYPEWRITING.

This school has turned out hundreds of men and women who are successes. It will make a success of you.

**Electric Bitters**

Succeed when everything else fails. In nervous prostration and female weaknesses they are the supreme remedy, as thousands have testified.  
**FOR KIDNEY, LIVER AND STOMACH TROUBLE**  
It is the best medicine ever sold over a druggist's counter.

## Strong Healthy Women

If a woman is strong and healthy in a womanly way, motherhood means to her but little suffering. The trouble lies in the fact that the many women suffer from weakness and disease of the distinctly feminine organism and are unfitted for motherhood. This can be remedied.

### Dr. Pierce's Favorite Prescription

Cures the weaknesses and disorders of women. It acts directly on the delicate and important organs concerned in motherhood, making them healthy, strong, vigorous, virile and elastic.

"Favorite Prescription" banishes the indispositions of the period of expectancy and makes baby's advent easy and almost painless. It quickens and vitalizes the feminine organs, and insures a healthy and robust baby. Thousands of women have testified to its marvelous merits.

**It Makes Weak Women Strong. It Makes Sick Women Well.**  
Honest druggists do not offer substitutes, and urge them upon you as "just as good." Accept no secret nostrum in place of this non-secret remedy. It contains not a drop of alcohol and not a grain of habit-forming or injurious drugs. Is a pure glyceric extract of healing, native American roots.

**Fall and Winter Goods.**

**HARDWICK AND CO.**

Our Fall and Winter Goods are in. Before making your purchases, call and see them and our prices on anything you may need. We claim that we will save you money by selling you goods that will give you more service for the money than elsewhere. If you do not already know us, give us a chance to prove this claim, for if we can do this it's to your interest to know it. We can't mention every thing here that we handle, as we try all times to keep as near as possible every thing the people want. But we will call your attention to some lines that we are especially anxious for you to get acquainted with. Men's and Boys' Clothing—we have them in the new, also in the plain, staple styles and feel sure you suit every one, and now we can save you money. Men's and Boys' Hats we have them in the new things in both rough and smooth effects, and also in the plain staple styles. "Walk-Over" Shoes for men, "Queen Quality" and "Boston Favorite" Shoes for women in all the popular leathers and lasts in both button and lace. We also defy competition in our lines of heavier shoes for both sexes in all sizes—try them and compare them with those sold elsewhere. See our lines of rain coats, hunting and work coats, corduroy and other serviceable pants, caps, trunks, suit cases, ladies' and gents' furnishing goods. In fact, see us for every thing, as it will pay you, for we want your trade, and to get it we must make it to your interest—this we will do.

**Hardwick & Co., Stanton.**

Samuel Hainline, aged 88 years, died at Winchester Monday from paralysis. Deceased was in former years one of Montgomery county's foremost stockmen and citizens. For the past year or more had been living with his daughter, Mrs. J. D. Poynter, at Winchester.

The proverbial "snake in the grass" has turned to a serpent in every-day-life.

#### Check Crops.

The farmer makes the most money who devotes his fields to the growing of crops to feed stock, making use of all the raw products at home, thereby not only saving much of the cost of transportation, but also maintaining the fertility of the soil. Taking everything into consideration, corn will probably produce more food per acre for domestic animals than any other plant, and there are but few feeds which can be fed in a greater variety of ways.

#### It's Puzzling.

Recently Mrs. Katherine Maxine Baumgardner, reputed to be the wealthiest woman in Louisville, Ky., embarked on the matrimonial sea for the fourth time by becoming the bride of Carl Neumeier, also of Louisville. The bride is said to be very close to eighty-three years of age and the groom somewhat over half of that. At somewhat the same time in Paris Mrs. Albert Clifford Barney, of Washington, who owns up to sixty-one winters and who is worth some \$5,000,000, married Christian D. Hemmick, of Washington, who is twenty-six years of age. There are times when matrimony looks like maternal love.

#### An Uncertain Step.

"Ha has about the strangest walk I have ever seen." "Yes; you see, he was engaged to a girl who wore a hobbie gown and just when he had got so he could keep step with her she threw him down, and now he is engaged to a girl who wears a harem skirt and he is trying to learn to keep up with her."—Houston Post

#### GOOD ROADS IN NORTHWEST

Washington State Alive to the Importance of Having Serviceable Highways.

The northwest is alive to the value of good roads. In a recent issue of the Seattle (Wash.) Intelligencer the statement is made that before the summer is over Seattle and Tacoma will be connected by a first-class macadamized highway. In King county, of which Seattle is the seat, there will be \$320,000 available, including state aid, for road improvement this year. Much of this will be spent on a trunk line destined to connect Seattle and Everett. From Everett to Tacoma an improved road is a matter of the near future. This road work is part of a general plan to build a trunk line from the northern to the southern boundary of Washington, which in turn will become part of a highway from the Great Lakes to the ocean, through the northern tier of states, and this will connect with another trunk line from British Columbia down the coast to Mexico—a dream of that wide-awake country that is certain to be realized in the next few years.

#### TRY FERRO-CEMENT ROADS

Experiments With This Substance in France Have Been Highly Successful.

"Ferro-cement" roads are being experimented with in France. The substance is made of cement mixed with straw. To make a slab or block of ferro-cement, a mass of iron-straw is placed in the mold, and there is poured over it cement sufficiently fluid to penetrate into all the interstices of the iron and completely cover it. When the whole has set, the core of iron thus intimately incorporated gives to the block a great resistance to breakage and to traction, at the same time furnishing elasticity to compression which enables it to stand superficial shocks. A brick of ferro-cement 1.5 inches thick has supported during crushing tests, a pressure of about 65 tons to the square inch. In breakage tests, the resistance was quadruple that of ordinary cement. Resistance to wear was no less remarkable.

#### FOR SALE A Splendid Farm.

A farm of 210 acres, well improved, 3 1/2 miles from Clay City on public road, convenient to churches, school and postoffice. Good dwelling of 8 rooms and 2 porches. Nice young orchard and excellent spring in the yard. Good barn and other necessary outbuildings. Tenant house on place. About all in blue grass. Some tillable land and timber on the place, and all under fence. There are in all 8 never failing springs in different parts of the place. This is a good place to make money where properly handled. One hundred acres of this land will grow good tobacco. This land is susceptible to division and will make two good farms. This is a bargain for some one. Come quick as this place must be sold at once. Call at the Times office.

#### Shingles for Sale.

Black oak and pine at \$2.50 and \$3.25 per thousand at mill.

Davis & Burgher, Vaughn's Mill, Ky.

PATENT LAWYERS,  
303 Seventh St., Washington, D. C.

## Very Serious

It is a very serious matter to ask for one medicine and have the wrong one given you. For this reason we urge you in buying to be careful to get the genuine—

## THE FORD'S BLACK-DRAUGHT Liver Medicine

The reputation of this old, reliable medicine, for constipation, indigestion and liver trouble, is firmly established. It does not irritate other medicines. It is better than others, or it would not be the favorite liver powder, with a larger sale than all others combined.

The Piano and Organ Maker

**The Nightingale of Organs**

#### MIDDLEMEN WIPED AWAY

I've busted the hot air bubble of the dealers, agents and middlemen of this country by selling direct to the homes at the same price they formerly paid me for my organs.

#### SEND ME YOUR NAME

whether you want to buy or not and I'll send you free of charge and postpaid the most wonderful organ book and buying plans you ever saw. All the organ men in this country claim they make the best organ but do not give you any proof. I do, and here is the proof. I own my own timber land, saw mills, dry kilns and factory. I do not have to pay one penny of profit for lumber or milling. The profits that other manufacturers pay to lumber and saw mills, I put into my Adler Organs. (The Nightingale of Organs). That's the reason my organ is better than any other make. Another Proof! I guarantee my organs for 50 years. Whereas others guarantee theirs for 10 to 25 years. Don't this mean something? My selling plans are the fairest, simplest, safest and easiest ever placed before the American public. In that I grant my customers all the time they want, arrange their payments as it suits their income and circumstances, give them reasonable extensions of time if they can't meet their payments and charge them no interest. Ask some of your neighbors who dealt with me about this. That's the best proof you can get. I would just as soon give you \$1,000 in gold if you can duplicate this proposition.

#### MY ORGAN (THE NIGHTINGALE OF ORGANS)

has a tone nearest to the human voice, a pure singing tone that lasts a life time and it won the highest prize at the St. Louis World's Fair, another proof my organs are the best. Everybody is buying an organ these days and everybody is buying an Adler on account of its high quality, wearing qualities, style and reputation. I am selling them for less than dealers and agents are selling cheaper grade organs and when you stop to think and realize that when you of these middlemen you must pay his profit, time, salesman's salaries, store rents and other expenses, my offer means a whole lot and stands before you as the king of money savers. My world's greatest organ factory is working day and night, grinding out the organs ordered, and this condition was brought about by the fair and liberal treatment I handed out to my customers, now numbering over 75,000. Whenever I sell an Adler, it sells a dozen more and so on indefinitely. They've stood the test and always will. Quality always wins out.

#### 75,000 ADLER OWNERS SAVED \$2,625,000

Before I went direct to the homes at wholesale factory prices, as I am doing now exclusively, I used to sell to dealers only, but when I found out that they sold my organs for twice and three times as much as they paid me, making the poor people bleed for it, I was thunderstruck and quit. I sent out thousands of notices telling them they couldn't buy another organ from me, that I meant to sell direct to the homes, saving them the enormous, unreasonable profits and expenses they were charging them. This came to them as a thunderbolt from a clear sky. In round numbers I've saved my customers (over 75,000 of them) at least \$2,625,000, all of which would have gone to the dealers had I sold the organs through them. You surely appreciate what this means.

#### NOW MY PROPOSITION TO YOU

is simply this, I will ship you, on 30 days free trial, any organ you want, on any reasonable terms you may suggest, just as it suits your income and circumstances. If you keep it at the end of the trial period, which I know you will, you can pay all cash or a small sum down and the balance monthly, quarterly, semi-annually or any other reasonable way. If at any time you can't meet a payment when it's due, I'll gladly give you a reasonable extension of time. You shall not inconvenience yourself by buying an Adler, for I'm going to make it the easiest purchase you ever made. I'll charge you no interest as other organ men are doing. If you object to this at the end of the trial period, you can ship it back at my expense and I'll pay you every cent you paid for freight, so you will lose absolutely nothing. Furthermore, if at any time within a year, my organ does not hold up to every claim I made, you can ship it back at my expense and I'll return to you every dollar of the purchase price with 6 per cent. Interest on all freight paid. I can agree to do this because I know how my organs are made and positively know they always make good.

#### 50 YEAR GUARANTEE

I guarantee all my organs for 50 years, something no other organ man will do. My guarantee bond is the strongest ever written and if you will ask your banker or any of my local banks or the editor of this paper as to my reliability, you will be told that I am as sound as a rock, that you can safely enter into any transaction with me and that all of my dealings are on the square. Send your name for catalogue and buying plans. You will be under no obligation whatever. Steel and instruction book given with every organ.

CYRUS L. ADLER, Pres. Adler Mfg. Co.

#### TEAR THIS OUT.

#### MAIL TO-DAY

Make a cross in the circle for organs—or piano—or write your name and address on a postal card or in a letter, stating which you want—piano or organ description. Don't enclose any stamp. I pay all charges. Write plainly.
